Couples will discover how to experience marital growth, how to develop your own marital coping system, and even how to use anger and conflict in a creative way to actually build your marriage partnership. And you will do this while having ten fun dates!

10 Great Dates has been created to provide a platform from which a couple can recharge the fun and conversation essential for a growing marriage.

The **10 Great Dates** program provides an element of accountability to help couples talk with one another, connect with other couples, and to stimulate the emotional intimacy and fun that enables couples to take the next step of communicating and living out their commitment to spiritual discovery and growth.

Building a great marriage is not so much knowing what to do as it is doing what you know. And until you act upon what you know, you'll never really make any changes at all.

Dating can add life and laughter to your marriage!

You will gain valuable insights into what makes a successful marriage work, and as you date, you can put these new insights into practice.
